

MISERABLE FOR TWO YEARS

"Fruit-a-tives" Restored Her Strength and Vitality

MONTICELLO, CARROLL CO., N. H.
"I was all run down and work was burdensome owing to indigestion, and gas in my stomach which caused me to belch a good deal. My heart seemed to be affected."

It was two years ago that I was in this condition and began the use of "Fruit-a-tives", which proved the very remedy I required. I was freed of the indigestion, which I attributed to my heart; and I can conscientiously recommend "Fruit-a-tives" the great Fruit Medicine."

Mrs. FRANK W. WALLACE.
50c a box, 6 for \$2.50, trial size 25c.
At dealers or from FRUIT-A-TIVES Limited, OGDENSBURG, N. Y.

STAND TO WIN

You can't lose if you take up this proposition: We claim that every horse owner who tries

Morrison's Old English Liniment for external troubles—such as hard, dry, pinched, sore or contracted hoofs, corns, quarter-cracks, thrush and mud fever, for all cuts, open sores, shoe boils, lame muscles, contracted cords, sprains, inflammation and rheumatism, will find it the most effective and satisfactory of anything he has ever used. If not, we will return every cent of your money.

It should always be in your medicine chest. Sold by all dealers. Price, full price \$1.00, or sent direct by us, prepaid on receipt of price. The James W. Foster Co., Bath, N. H.

Backache Is Discouraging

But Not So Bad If You Know How To Reach the Cause.

Nothing more discouraging than a constant backache. Lame when you awaken, pains pierce you when you bend or lift. It's hard to work or to rest. Backache often indicates bad kidneys. Barton people recommend Doan's Kidney Pills. Ask your neighbor. Read this case:

H. A. Folsom, prop. butcher shop, Glover street, Barton, says: "I have used Doan's Kidney Pills and consider them an excellent kidney and backache remedy. At times I am subject to an aching pain and my kidneys do not act right. I have found good relief from the use of Doan's Kidney Pills. I am glad to recommend them for the purpose their use is indicated. Doan's have brought me relief from a lame and aching back, regulated the kidney secretions and benefited me generally." (Statement given June 5, 1911.)

On May 14, 1920, Mr. Folsom said "I still think Doan's Kidney Pills are very good. I haven't had to use them for the last two years. Doan's cured me and I am glad to say a word of praise for them. I gladly renew the statement I made several years ago."

Price 60c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Folsom had. Foster-Milburn Co., Mrs., Buffalo, N. Y.

Try This Sample Test

One Reason Why CASCARA QUININE Acts On The Spot

HILL'S C. B. Q. Tablets are best by test. Try this simple experiment:
1. Drop a C. B. Q. Tablet in a glass of clear water.
2. Instantly the tablet begins disintegration or "breaking up."
3. In 10 seconds the medicinal properties are thoroughly mixed with water.

Thus, Hill's C. B. Q. Tablets act immediately, give relief without delay and begin checking Colic and La Grippe long before ordinary tablets, by actual test, are absorbed by the stomach juices. To prove this, subject other than C. B. Q. Tablets to the test, and observe that in most instances an hour or more is required for complete disintegration.

Demand C. B. Q. Tablets in red box bearing Mr. Hill's portrait and signature.

JACQUES CAPSULES ARE CERTAINLY WONDERS

Mr. T. J. Coffin, of Brooklyn, N. Y., says: "Your JACQUES LITTLE WONDER CAPSULES are certainly 'Wonders'. In fact, it is the only remedy that has relieved my stomach trouble and cured the dizziness I have been subjected to. I gladly recommend them to my friends."

Mr. Coffin's letter is but one of hundreds of unsolicited testimonials which have been sent to this company by those who have suffered from stomach and intestinal disturbances and have been given quick and sure relief by this valuable prescription.

Medical authorities state that capsules are superior to pills and tablets. The pure substance that forms the capsule, cures a disease by covering the medicine with a protective coating to the stomach, and it dissolves only in the stomach, while pills and tablets often become so dry and hard they do not dissolve at all, but pass solidly through the stomach and bowels.

SAVE YOUR STOMACH WITH JACQUES LITTLE WONDER CAPSULES

ON SALE AT FRED D. PIERCE'S, BARTON, VT. AND AUSTIN'S PHARMACY, ORLEANS, VT., OR BY MAIL AT 60 CENTS PER PACKAGE FROM JACQUES CAPSULE CO., PLATTSBURG, N. Y.

VERMONT NOTES

The Bristol American Legion cleared \$600 at its recent bazaar.

The town of Springfield asks bids on \$120,000 of refunding town bonds. The women deer hunters in Goshen found pussy-willows in bloom last week.

Montpelier hasn't a vacant store, while a few years ago there were nearly 30.

The Texas Oil company is erecting a 25,000 gallon storage plant at White River Junction.

Rev. William F. Wilson has resigned as pastor of the first Baptist church of Burlington.

The granite manufacturers of Barre have proposed a 44-hour week to the union, with a minimum wage of 75 cents an hour.

M. V. Taylor of Richford has purchased the drug business of Fred W. Mitchell, paying \$10,500 for the stock and good will and \$12,500 for the block.

The St. Johnsbury Athenaeum celebrated its semi-centennial Saturday. It was presented to the town and opened to the public by its donor, Gov. Horace Fairbanks, Nov. 27, 1871.

Charles M. Bennett of Montpelier, aged 60, for 31 years an employee of National Life Insurance company, died Thursday. He was a member of the bar but was never in general practice.

Henry Elkey, of Rutland, aged 65, who sustained a fracture of the spine last Wednesday in an accident, died early Saturday in the Rutland Hospital. He leaves a wife and 13 children.

Notices have been posted announcing an examination for postmaster at St. Johnsbury Dec. 22. Jonas H. Brooks and Arthur F. Stone are among the candidates who will take the examination.

Ten Brattleboro young men pleaded guilty the other day to the charge of crap shooting and were fined \$20 each and costs of \$8.40. They were arrested on the island in the Connecticut opposite Brattleboro.

Lawrence Russell, a 16-year-old Rutland boy, while out gunning with a companion Friday was accidentally shot in the back of the head. He was rushed to a hospital and his condition is regarded as dangerous.

Mrs. Elizabeth C. Coleman of Brattleboro, aged 85, a former medical practitioner, died Friday. She began the study of medicine with an uncle at Brandon when 14 years old and was engaged as a physician the most of her life.

While Mrs. Ben LaFlamme of Peru was returning home from Londonderry where she had been to get a pair of horses shod, the horse she was driving was shot dead in the woods near Hapgood's mill by a hunter who mistook it for a deer. The hunter settled.

Warren W. Bailey, sr., a brother of the late United States Marshal Horace W. Bailey, died at Newbury Thursday. Mr. Bailey was born in Newbury in 1859 and had twice represented his town at Montpelier. He is survived by a widow, one daughter and two sons.

The total number of deer killed in the season, which just closed has reached 1,600 and possibly it will go higher, for years of experience have shown that the number killed generally is double the total reported the last day of the season, there being many delayed reports.

Dr. Stephen F. Dunn, a Wilmington physician, was minus his best driving horse a few hours Wednesday, it having been stolen from his barn, but as the thieves were leading the horse on the Searsburg road the animal slipped his bridle, turned on his heels and started for home on a gallop. The animal went through Wilmington village on the run and directly to his barn.

Mason S. Stone, secretary of the Vermont Public Safety committee, is working on plans whereby the unemployed of the state will be provided with work during the winter months, but is not ready to announce his program. The American Legion has a plan in operation which has been endorsed by the Associated Industries of the state.

Adj.-Gen. H. T. Johnson has appointed Joseph G. Estey of Brattleboro as adjutant of the First Vermont Regiment to succeed Harley Hartwell of St. Johnsbury, who was recently appointed intelligence officer. This appointment makes it possible for Col. Gibson to have his adjutant at the headquarters of the regiment and thus be able to handle the work better. Capt. Estey is a veteran of the world war.

Vermont is rated fourth state in the Union in number of accredited herds by the United States department of agriculture's bureau of animal industry in its October report, recently received at the department.

Vermont has 725 herds. Vermont is led by Pennsylvania with 749, accredited herds, Wisconsin with 1,393 and Minnesota with 1,216. Vermont is seventh state in number of herds on the waiting list for tuberculosis testing, having 1,063 herds on the list.

Early last Tuesday morning George Duclos of East Bakersfield was awakened by a crash. Investigation showed that the front veranda of the house had been wrecked by the impact of an automobile. In the auto were two men and 14 cases of Canadian whiskey. The men escaped leaving the wreck. It seems the car was running at high speed without lights and hit a telephone pole, breaking the steering gear and turning it into the piazza. A deputy sheriff was notified and he took charge of the abandoned property.

Henry Tessier, who has been in the Montpelier jail since he was sentenced in federal court a few weeks ago, was taken by U. S. Marshal Arthur P. Carpenter to Atlanta, Ga., Monday, to begin a sentence of three years for violation of the immigration laws. Smuggling of liquor, diamonds and Chinamen, were charged against him by federal officers. A \$5000 fine imposed will probably never be paid as Tessier claims he lost everything. Tessier, who was sentenced on his wedding day was accompanied to Atlanta by his wife and her mother.

Warm Secret.
An interesting suggestion for use in connection with soldering iron or steel is to make a swab from flexible electric light cord, which is used in swabbing on to the work a solution made by dissolving a bit of zinc in muriatic acid and then diluting with a little water.

MAKE YOUR MONEY EARN!

If you have any funds that are to be idle thirty days or more send them to us and we will pay you interest thereon at the rate of 4 per cent per annum from date of deposit.

We accept deposits of any amount. Send a trial deposit and see how it works out. Withdrawals can be made at any time with practically no loss of interest, as we pay interest for every thirty days the money remains with us.

Little Thoughts on Big Topics

The United States has spoken. Briefly, America proposes to take the lead in the scrapping of warships and the practical suspension of naval construction for a period of ten years.

The buck is at the feet of the nations of the old world. They cannot pass it. Neither can they kick it aside. They must act, for or against.

If they sincerely desire peace they can have it by adopting the simple expedient of meeting the eminently fair proposition of this country. If they have secret leanings toward future wars and hedge and the conference will fail of its purpose.

The world is holding its breath. Whether the final outcome is to be permanent peace and the reduction of the heavy burdens of armament remains to be seen.

Without a doubt the people of the civilized world are earnestly hoping for a solution of the arms question that will bring continued and lasting peace to the earth. But what the people desire, and what governments will do, are often widely at variance.

Delegates from the principal powers, represented in Washington were quick to rally from the stunning blow administered by Secretary Hughes. They accepted "in principle" the American proposals, but qualified their acceptance with the statement that the actual working out of such a revolutionizing plan would depend mainly upon the possibility of their "technical experts and advisers" being able to reach a common ground of understanding.

Therein lies the great danger, and it is grave indeed. These "technical advisers" may rise to the supreme occasion and liberate the world from the blight of war. Then again, they may not. No one knows in advance. No one "expert" will do or say. Technicality is their god, the shrine at which they worship. They live in an atmosphere of their own, out of touch and out of harmony with the mass of the people.

As you follow the proceedings of the parley from day to day just keep these facts in mind and your enthusiasm in check. The American proposals were accepted only "in principle." They could afford to go on record as doing less, after America had taken the lead.

In working out the details the "experts" attached to each set of delegates will maneuver for position, in the age old effort to gain as much as possible for self.

Each is entitled to a prize. But the facts are as above—in few words.

Do not believe all that you read on the subject. Our asylums are already overcrowded. Washington correspondents are versatile. They possess the ability to write glowing articles even upon subjects of which they know little—or nothing. They must earn their pay.

And do not be hasty in jumping to conclusions. You might have to jump back again before the conference adjourns.

Fourteen thousand four hundred and sixty-three forest fires in the pulpwood regions of the United States, burning over 2,059,408 acres is the record for 1920, according to a report of the woodlands section of the American Paper and Pulp association. And in New England and New York, the report says, the record for 1921 is even worse. Reforestation is highly important but these records are eloquent of the value of the ounce of prevention.

In Conversation.
To guard against repeating a story to the same person is a point worth noting. The inclination to interrupt or correct others for inaccuracies must be controlled. Not only must we try to say the right thing in the right place, but leave unsaid the wrong thing at the tempting moment.

Martie Petrie of Concord is here on account of her mother's illness.

Clarence Ash and mother spent the week-end at Geo. McFarland's in Sutton.

Rev. George Gray of Cornish, Me., has been called here on account of the serious illness of his mother, Lydia Blake.

SUTTON NORTH RIDGE

Marle Wilkie is a guest of his sister, Mrs. Leo Blake.

Miss Ruth Fellows returned from Danville Saturday.

Ernest Buck is home from Warren, N. H., ill with the grip.

School begins November 28, after 10 days' vacation.

Howard McShane visited his brother, Durward, the past week.

Clarence Ash and his mother spent two days in town recently.

Mr. and Mrs. Avery Curtis are stopping with Arthur Curtis for a few days.

O. W. Ingalls and Fred C. Ingalls spent Thanksgiving with their brother in Haverhill, N. H.

Mr. Hawkins' people spent Thanksgiving with her sister in Burke; Mr. and Mrs. Grant at A. P. Sias'; Roger Curtis at H. M. Curtis'; and Mr. and Mrs. L. T. Gray of Newark and Mr. and Mrs. Ray Gray and children at G. H. McFarland's.

Worth While

(Ella Wheeler Wilcox)

It is easy enough to be pleasant When life flows like a song, But the man worth while is one who will smile.

When everything goes wrong, For the test of the heart is trouble, And it always comes with the years, And the smile that is worth the praises of earth Is the one that shines through tears.

It is easy enough to be prudent When nothing tempts you to stray, When without or within no voice of sin Is luring your soul away.

But it's only a negative virtue Until it is tried by fire, And the life that is worth the honor of earth, Is the one that resists desire.

By the cynic, the sad, the fallen, Who had no strength for the strife, The world's highway is cumbered to-day; They make up the item of life.

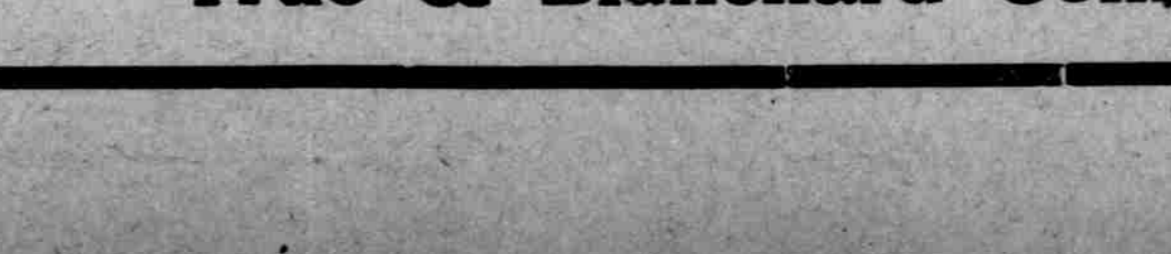

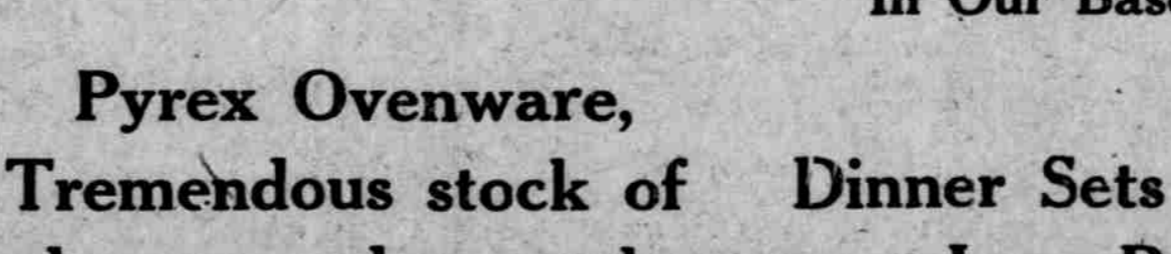

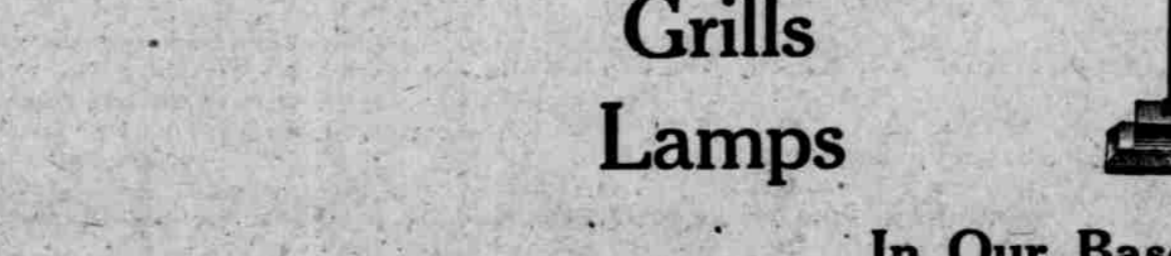

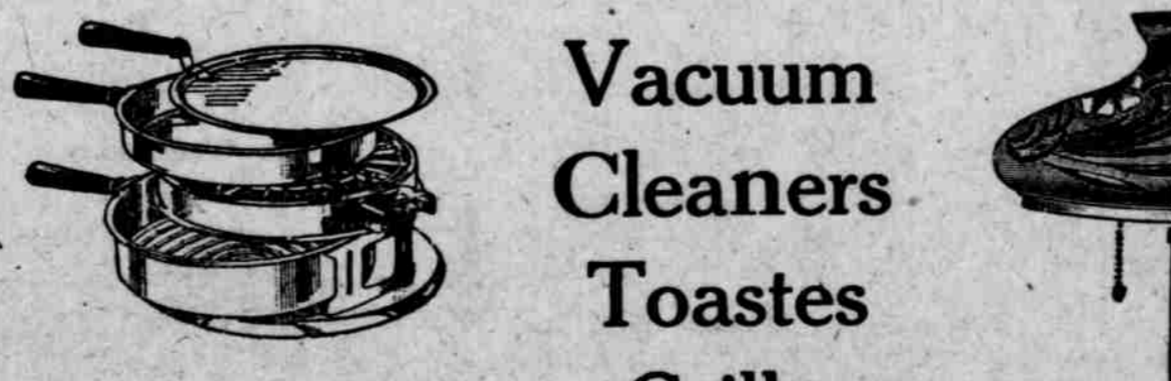

But the virtue that conquers passion, And the sorrow that hides in a smile,— It is these that are worth the knowledge of earth, For we find them but once in a while.

Florida's Remarkable Spring.
Silver spring, Florida, one of the largest springs in the world, fills a basin 200 feet wide and 30 feet deep. The water, which is extremely transparent, issues from several orifices at the bottom of the basin at the rate of several hundred million gallons a day.
